University Placement Service

University Admission Made Easy

For over 25 years, the ELS University Placement Service (UPS) has been helping international students gain admission to a diverse cross section of U.S. universities and colleges. More than 550 such institutions of higher learning are members of the ELS Cooperative Program. All cooperative partners accept completion of an advanced level in the ELS intensive English program as fulfilling their English proficiency requirement.

University Placement Service will help your university bound students find a great match with an American university or college - and gain admission before ever leaving their home country. If your students meet all university entrance requirements except for English proficiency, they receive a Conditional Letter of Admission. Upon completion of the specified level of ELS and any program-specific requirements, students matriculate directly into that university.

Your Advising and Placement Partner

- **Advising:** UPS is composed of a team of U.S. Higher Education experts with over 75 years of experience working with university admissions departments. UPS staff will assist in the selection of a university or college that best meets your student's academic background and educational goals.
- **Document Processing:** UPS handles the student's application materials, oversees the application process, and communicates directly with the U.S. institution(s) selected in order to ensure a timely determination.

- **Credential Evaluation:** When required, and for an additional cost, UPS secures an official evaluation and certification of your student's international secondary school and/or university transcripts and credentials.
- **Notification:** UPS notifies you of your student's academic determination within 4-6 weeks (undergraduate application) or 6-8 weeks (graduate application). UPS sends all original determination materials to you via international express mail.
